

Children's Guide to Marking

Marking helps me to:

- Understand what I have done well
- Understand how to make my learning better
- Tell me what my next steps are

Teachers use symbols to help me understand their marking. These are:

The teacher is telling me what I have done well.

I have got something right.

I have used an interesting word in my writing.

ch I need to check my work (mainly in maths) and try again to get the answer right.

I have a target or a next step in my learning.

I must improve this straight away.

VF (**verbal feedback**) My teacher has talked to me in a lesson about how I can make my learning better.

I have forgotten a full stop at the end of a sentence.

Let us all join together to celebrate the core
Christian Values of Lindley CE (VA) Infant School.
